

Class: *Reversible Quilt*

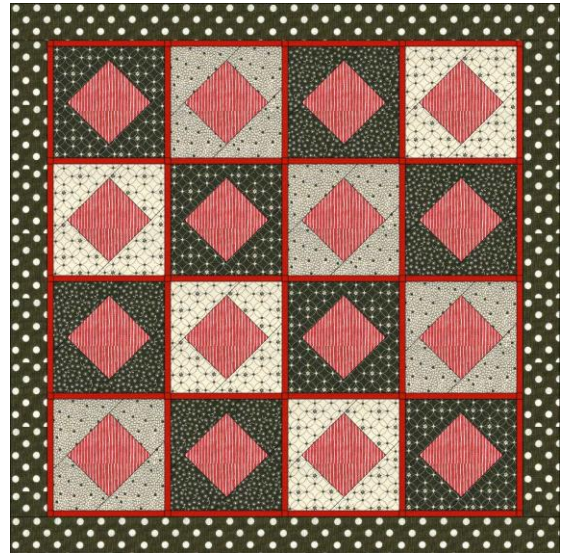

Instructor: Kristin Echols

Email: KristinLaura@gmail.com (Send me an email if you have any questions!)

Supply List

| Fabric | |
|-------------------|---|
| Blocks | ½ yd each of 4 different fabrics |
| Block centers | ¼ yd (you may need more if you want to fussy cut the fabric for the centers) |
| Borders | 1 yd |
| Sashing & Binding | 1 ¼ yd |
| Batting | 1 yd. Hobbs Heirloom Fusible Batting (96" wide) or 1 crib-size package |

(Finished size of quilt is about 41" square)

| Other Supplies | |
|---|--|
| <ul style="list-style-type: none">___ Sewing Machine (with power cord, foot pedal, and needles!)___ ¼" Foot___ Walking Foot___ Rotary Cutter with fresh blade___ Cutting mat___ 8 ½" square ruler___ 6" X 24" ruler___ Scissors___ Pins | <ul style="list-style-type: none">___ Fabric Marker (vanishing or chalk)___ Pressing cloth___ Blue painter's masking tape (optional for marking blocks)___ Neutral colored cotton thread for piecing___ Colored cotton or rayon thread for decorative stitching___ Monofilament thread (if you're using dark colored fabrics, you may want to use the smoke colored monofilament) |

Before class:

- Cut (16) 9" squares from the batting. Save the remaining batting for the borders. (Note: Do not rotary cut through more than 2 layers of batting at a time, and if possible, use an old rotary cutting mat or the back of the mat because the batting will leave the mat furry.)
- Cut the block fabrics. From each of the ½ yd pieces cut the following:
 - (8) 9" squares
- Cut the block centers. If your fabric has a directional pattern, remember these squares will be set on-point (like a diamond).
 - Cut (16) 4 ½" squares

Notes:

- Using the fabric requirements above, the back of the quilt will look the same as the front, minus the block centers. You can make a scrappier quilt by using more fabrics. Each block needs one 9" square for the front, one 4 ½" square for the block center, and one 9" square for the back side. You can use completely different color schemes for the front and back.
- The block centers look great with machine embroidery. Use a design that is about 3-3 ½". Don't forget these squares will be set on point! Embroider, then trim to 4 ½" squares.
